Carol,

I did see it and trying to locate it. For some reason it has disappeared from my inbox. I will track it down and get it to you ASAP.

Thanks,

Steve

Subject: FW: Potential Remediation Locations

Hi steve - Sorry to bother you again, but since you won't be back until after the new year, I was wondering if you would please e-mail me the attachment that MWD sent with the proposed remediation locations. (I have only the attachment from Jim Harrington about the need to exercise care when working with soaps that might skew the lab results for 1,4-dioxane). If you don't have it, or if it takes more effort than just forwarding Mr Carey's e-mail to me, don't worry about it.

Thanks,
-Carol-

Hi Steve - When Doug G sent this thread to Rob and me, the attachment from MWD was not included. I noticed that you were copied on Stan Carey's e-mail which started this thread. If you have a copy of the attachment with the potential remediation locations, please send it when you have the chance.

Thanks, and Happy Birthday-

-carol-

Subject: Potential Remediation Locations

Attached are the potential locations identified by Massapequa Water District mentioned at yesterday’s meeting. Thank you for a productive meeting.

Stan Carey, Superintendent
Massapequa Water District
